Where a distribution is declared, investors are advised that following the distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV.

Based on the Fund's portfolio returns as at 31 August 2019, the Volatility Factor (VF) for this Fund is 5.4 and is classified as "Low" (source: Novagni). "Low" includes funds with VF that are above 1.885 but not more than 6.455. The VF means there is a possibility for the Fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The Fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC.

The Master Prospectus of funds of ASNB dated 30 June 2017 and supplementary prospectuses dated 15 December 2017, 1 April, 9 July, 14 September 2018 and 2 January 2019 ("Prospectuses"), have been registered with the Securities Commission Malaysia. Please read and understand the content of the Prospectuses together with the Product Highlights Sheets which are available at ASNB website, branches and agents. Units will be issued upon receipt of the registration form referred to and accompanying the Prospectuses. Before investing, please consider the risks of investing as well as the fees and charges involved. Unit prices and distribution payable, if any, may go down as well as up. Past performance of a fund should not be taken as indicative of its future performance.

Investors who wish to know the key features of a specific unit trust fund of ASNB may request the Product Highlights Sheet issued by ASNB at any office of ASNB, agents and website.
