Where a distribution is declared, investors are advised that following the distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV.

Based on the Fund's portfolio returns as at 30 June 2017, the Volatility Factor (VF) for this Fund is 5.9 and is classified as "Low" (source: Novagni). "Low" includes funds with VF that are above 1.785 but not more than 5.965. The VF means there is a possibility for the Fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The Fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC.

The Master Prospectus of funds of ASNB dated 30 June 2017, has been registered with the Securities Commission Malaysia. Before investing, investors are advised to read and understand the content of the Prospectus and the Product Highlights Sheets which are available at ASNB's website www.asnb.com.my and also at any ASNB branches and its agents. Units will be issued upon receipt of the registration form referred to and accompanying the Prospectus. Before investing, kindly consider the fees and charges involved. Unit prices and distribution payable, if any, may go down as well as up. Investors are also advised to consider the inherent risk of investing in the funds and other general risk as elaborated in the Prospectus. The past performance of a fund should not be taken as indicative of its future performance.

Investors who wish to know the key features of a specific unit trust fund of ASNB may request the Product Highlights Sheet issued by ASNB at any office of ASNB and its agents.

FUND OVERVIEW

Investment Objective

To provide investment opportunity which generates reasonable long-term growth and returns to fulfil part or all of the immediate liquidity requirements to enable the Unit holders and/or their children and/or charges to continuously meet their ongoing medical requirements in the long-term.

Potential Investor

Those who understand investment risks and rewards and are seeking growth of capital over the long-term period and to plan to fulfil the financial requirements of their medical expenses.
