Based on the Fund's portfolio returns as at 31 March 2025, the Volatility Factor (VF) for this Fund is 3.9 and is classified as "Very Low" (source: Novagني). "Very Low" includes funds with VF that are above 0.000 but not more than 4.990. The VF means there is a possibility for the Fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The Fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC.
